An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Young on August 17, 2005

The drawings are objected to because they are informal. Specifically, the labeling is informal. Correction is required.

The application has been amended as follows:

Claims 2-4, 7, 8, 40, and 75-84 have been canceled.

The examiner phoned Mr. Young and informed him that claims 2-4, 7, 8, 40, and 75-84 would be rejected under the Shaker article in view of Hickey 6238349, which had two probes in the esophagus and sent the probes to a common monitor for real time, side by side display. The examiner indicated that this reference would make it obvious to one skilled in the art to send the signals from the two probes of Shaker to a common monitor for real time display, to allow immediate diagnosis of a patient. Applicant then agreed to cancel these claims and allow the remaining claims, which had been indicated allowable in the previous office action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (571) 272-4731. The examiner can normally be reached on Mon-Fri, variable hours.
